MEMORANDUM FOR: Deputy Director of Security

SUBJECT : Revision of DCID 11/2

REFERENCE : Your Memorandum dated 10 September 1959; same subject.

1. I have reviewed Draft No. 1 of the revision of DCID 11/2 and believe that the matter of defining intelligence contractors and the establishment of working agreements for the use by them of USIB produced untelligence are matters falling under the purview of the USIB Committee on Documentation (CODIB). I have no objection for a statement to that effect being included in the revision of DCID 11/2 but can see no purpose in outlining the procedures and defining the terms which should be developed by CODIB.

2. The present Industrial Security Regulations of the Department of Defense prohibits the defense agencies from disseminating any classified information of another agency to a contractor unless the permission of the originator is first obtained. The main reason for the SED CODIB "agreement" is to give the defense agencies the necessary permission to pass each others classified material in certain categories to certain types of contractors. There is presently no such limitation on CIA produced information or intelligence except as provided for in DCID 11/2.

3. The CODIB in arriving at agreements concerning the dissemination and use of USIB produced classified material, must follow the principles established by Executive Order 10501, departmental security regulations and DCID 11/2 which cover determination of "need-to-know," security clearances required, and control and use

Approved For Release 2001/03/02 : CIA-RDP67-00896R000100170082-6

of the material and information. I do not feel that blanket permission by the USIB members to release certain categories of USIB classified material to certain types of contractors is one of those "principles". The principle here is established by the Department of Defense Industrial Security Regulations that "permission" must be obtained from the originator before another agency's classified information is passed to a contractor. The CODIB agreement is merely a way of obtaining permission on a blanket basis.
